CIM Group

Single Package Vertical Air Condition and Heat Pumps (SPAC/SPHPs) from Ice Air are all-in-one units that offer reliable, high-efficiency performance and design flexibility for applications where space is at a premium.

SPAC/SPHP units are designed to condition multiple rooms and work from within an interior wall space to provide quiet, efficient, zoned cooling and heating.

About Ice Air. Headquartered in Mount Vernon, NY, Ice Air develops and manufactures a wide variety of HVAC units for new construction, replacement and retrofit applications. The company's PTAC products are designed to provide years of efficient, trouble-free performance in multifamily housing, hotels/motels, dormitories, commercial buildings and similar projects.
