

Electrified Product Family

* By making energy-saving upgrades today, you can give your building a head start on upcoming changes to city regulations such as NYC Law 97.

RSXC Series*

Cold Climate PTHPs give you the performance of a VRF system with the convenience of a PTAC. Using breakthrough cold climate technology allows Ice Air PTHPs to efficiently provide space heating down to -5°F and below.

HPWH Series*

Air-Source Cold Climate Heat Pump DHWs capture the free energy in the environment and convert it to hot water. These units are certified to operate down to -13°F.

SPXC Series*

Cold Climate SPXCs are self-contained, concealed, ducted systems. This line of vertical packaged heat pumps serve multiple spaces through concealed ductwork to efficiently provide space heating to -5°F and below.

ICE AIR VRF

W Series

S Series

H Series

OUTDOOR UNITS

Ice Air VRF Systems include air-cooled heat pump, air-cooled heat recovery, and water-cooled heat pump condensing units.

INDOOR UNITS

Ice Air VRF Indoor Units are offered in a variety of different configurations to meet every application need.

VSHPGE

Geothermal

Ice Air's Geothermal WSHP is a versatile geothermal heat pump that's available in a range of sizes and configurations for convenient installation. Fully compatible with geothermal conditions, Ice Air's Geothermal WSHP provides an ideal solution for whisper quiet cooling and heating within a tight footprint.

Full Product Family

FCU

Fan Coil Units

Horizontal Concealed

Horizontal Ultra Thin

Vertical Exposed

Vertical Concealed

Hi Rise

This simple and easy cooling and heating solution provides reliable performance, high efficiency, ease of operation, low cost, easy installation, quiet comfort and a variety of solution-based options.

HWAC

Hybrid Water-Cooled Air Conditioners

Vertical Closet

Horizontal

Console

Vertical Stack

The HWAC is an innovative system that combines high-efficiency cooling with a hot water coil that provides hydronic heat without using the unit's compressor.

WSHP

Water Source Heat Pumps

Vertical Closet

Horizontal

Console

Vertical Stack

WSHPs heating and cooling units provide efficient room-by-room comfort. Units function independently and are piped to a central water loop. These state-of-the-art units come with user friendly digital controls designed to optimize user comfort and ease of operation.

SPAC/SPHP

Single Packaged AC/Heat Pumps

As a unique air-to-air system, SPAC/SPHPs provide versatility with ultra-quiet operation. The SPAC/SPHP is designed to

cool and heat single or multiple spaces within multi-family, lodging, dormitory or light commercial buildings.

PTAC

Packaged Terminal Air Conditioners

new construction, retrofit and ExactFit™ replacement applications.

PTACs are designed for ultra-high efficiency and comply with LEED® criteria in a durable, user-friendly package. Available for
